Space Available Application

Your student is ineligible for transportation per the Utah State Guidelines and lives within the "No Bus-Zone". If there are seats available on a bus which is traveling through your neighborhood and an established stop within a reasonable distance, your student may be considered for transportation. At the end of September applications will be reviewed by the Transportation Office. Applicants will be notified the first part of October after all of the applications have been reviewed.

"Space Available" seats are temporary and this privilege could be withdrawn at any time. Students who ride on a "Space Available" basis are expected to board the bus at the nearest existing bus stop. They must also observe the same rules of conduct expected of eligible riders.

I understand and agree that:

- This service is temporary and will be relinquished if additional seats are needed for eligible riders.
- **Yearly application is required.**
- Rules of conduct will be obeyed.
- A previously designated bus stop will be used.
- My student is not allowed to ride the bus until I receive a letter of notification indicating that this application has been approved.
